VETERINARY REMEDY

GOAT & SHEEP REMEDY

**BASED ON A FORMULA
IN USE SINCE 1874.**

For treating all breeds of goat and sheep. For Internal and External application.

RESPIRATORY PROBLEMS

Symptoms -- Coughing, sneezing, rattling sounds, possible loss of appetite.

Treatment -- 3 drops in each nostril 4 times daily for 3 days for adult animals.

2 drops in each nostril 3 times daily for 3 days for kids and lambs.

Can be safely used in conjunction with any prescribed veterinary medication.

Contents -- 2 fluid ounces (59 ml).

Ear Mites -- Goats and Sheep are subject to psoroptes cuniculi, the same ear mites that effect domestic rabbits.

Symptoms -- Head shaking, scratching of ears, crusty material and waxy build up. In extreme cases head tilted to one side.

Treatment -- Treat the entire herd with VetRx to prevent rapid spread of mites. Thoroughly coat the inside of each ear with VetRx. Repeat treatment daily for 3 days. DO NOT ATTEMPT to scrape off scabs! If there is a lot of discharge, begin wiping the inside of the ear with cotton ball soaked in VetRx.

For more than 100 years, the VetRx formula has been used as an aid in treatment of respiratory ailments.

CAUTION

For animal use only. Not for human consumption.

Use ONLY as directed. **Keep away from**

Children. If symptoms persist for more than 48 hours consult a licensed veterinarian.
