

EQUINE FORMULA

DOSAGE AND ADMINISTRATION

Use VetRx to support healthy upper respiratory function or in conjunction with antibiotics. In addition it may be used pre-race for respiratory health. In some cases the aromatic effect of VetRx can be experienced for several days with just one dose.

Routes of Administration:

- 1 oz. orally 2 to 3 times per day
- 10 cc intra-nasally via syringe or plastic catheter.
- Direct spraying of bedding, walls, doors and other inanimate objects in the stable.

If symptoms persist for more than 48 hours consult a licensed veterinarian.

Note: please make certain that sprayer is free of any residue. Use only clean bottles to spray.
